Art Unit: 3694

Continuation of item 3: Applicant's amendment's to the claims raise the possibility of new matter and new issues that require further consideration and/or a new search. Per applicants remarks it appears even applicant is of the opinion that the amended claims no longer read on the invention as previously claimed and rejected by the art of record as set forth in the previous Office action. The amendments will not be entered as they do not place the application in better form for appeal because, for example, they do not overcome the 35 USC 101 rejection set forth in the previous Office action. Further, Applicant's amendments to the claims and arguments in support thereof require more than a cursory review normally allowed after final amendments.
